To Whom It May Concern:

The E-Rate's investment in Category 2 Wi-Fi and internal connections funding is extremely valuable to us as a public K12 charter school and could not be replaced by school, district or state funds. Our school plans to use all of its E-Rate Category 2 allotment by 2020 for the following items WiFi access points, managed WiFi network services, and cabling. We anticipate that the connectivity provided by these Category 2 items will provide critical support for the 1:1 BYOD environment at our high school as well as for developmentally appropriate instructional technology we use with students in grades K through 7.

Sincerely,

Connie Wessner
Director
